SKILLS

HTML5 | CSS3 | JavaScript
React | Node.js | Git
Firestore | Docker
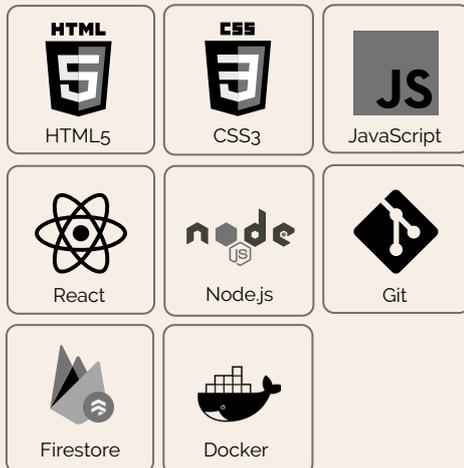

LANGUAGES

- Hungarian (native)
- English (advanced)
- German (intermediate)
- Italian (basic)

RÉKA VADÁSZ
FRONT-END DEVELOPER

ABOUT ME

My professional goal is to strengthen my skills as a junior front-end developer.
I have created several projects with HTML, CSS/SCSS, JavaScript and React.js using REST APIs and learned about unit testing with JEST.
I also have some basic experience with back-end development using Node.js (Express.js), NoSQL database (Cloud Firestore) and image storage (Cloudinary).
I am looking forward to develop my knowledge, learn new technologies and create beautiful and user-friendly UIs.
